

Scanned with CamScanner

C program to remove spaces from string.

1. Start
2. Enter a string
3. $len = strlen(str)$
4. $for(i=0 \text{ to } i < len)$
 if ($str[i] == ' '$)
 $for(j=i \text{ to } j < len)$
 then $str[j] = str[j+1]$
 process len
5. Output string after removing spaces
6. Stop
